

## USB-C Power Bank

20000mAh

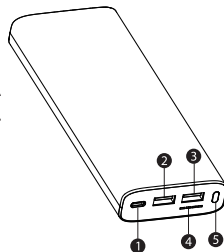

Model No.: DPC20GY

Version 1.2

### Power Bank Layout

- 1 USB-C Input & Output
- 2 USB-A Output 1: 5V 2.4A
- 3 USB-A Output 2: 5V 2.4A
- 4 Capacity LED Indicators
- 5 Power On/Off

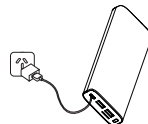

### Suitable for

- MacBook, MacBook Pro 13" & MacBook Pro 15"
- USB-C charging laptops & ultrabooks
- iPhone, iPad, iPod, smartphone, tablet, smartwatch, fitness tracker, digital camera, headphones, headset, speakers & more

### Features

- USB-C Power Delivery ensures fast, safe & optimal charging performance
- Charge a MacBook once, a tablet 2 times & a smartphone 7 times
- 45W of power provides up to 9 times the power of a standard power bank
- USB-C PD port can fast charge an iPhone X/8/8 Plus from 0 to 50% in 30 minutes\*
- Both USB-A outputs have integrated Smart Power Chip that identifies your device and provides maximum power for speedy charging times
- 2.4A high power output for fast charging of iPad or tablet
- Rechargeable more than 500 times
- Four LED indicators to show remaining capacity
- Includes 30cm USB-C to USB-C & 30cm USB-A to USB-C cables
- Built-in over charging and short circuit protection
- Watt Hour Rating: 72.4Wh
- USB-C PD Input: DC 5V 3A / 9V 2A / 12V 2A / 14.5V 1.5A / 20V 1.5A
- USB-C PD Output: DC 5V 3A / 9V 3A / 12V 3A / 14.5V 3A / 20V 2.25A
- USB-A Output 1: DC 5V 2.4A
- USB-A Output 2: DC 5V 2.4A
- Total Output: 45W
- Charging Time: 12 hours with 2A charger or 24 hours with 1A charger
- Size: 188mm (L) x 66mm (W) x 23mm (H)
- Weight: 450g
- Certifications: RCM, RoHS, UN38.3

### To Charge Power Bank

- For fastest charging times, use the included USB-C to USB-C cable and charge the power bank using your original MacBook charger or original USB-C laptop charger
- You can also charge the power bank using the included USB-A to USB-C cable and charge using a standard USB wall charger
- During charging the LED indicators will flash
- When charging is complete the LED indicators will be permanently on

### To Charge MacBook or USB-C Laptop

- Using the included USB-C to USB-C cable connect the USB-C port on the power bank to the USB-C port on your MacBook or laptop
- Press the On/Off button to start charging

### To Charge iPhone or Smartphone

- To fast charge an iPhone X, 8 or 8 Plus, use a certified USB-C to Lightning cable and connect the USB-C port on the power bank to your iPhone
- To charge a smartphone, tablet or other USB device, use the device's own charging cable and connect either USB-A port on the power bank to your device. Charging should start automatically
- If charging doesn't start, press the On/Off button to start charging
- When your phone or device is fully charged, the power bank will automatically turn itself off

### To Check Remaining Capacity

- Press On/Off button and LEDs will light to show remaining capacity
- The LEDs will turn off automatically after about 5 seconds

| LED ● On / ○ Off / ● Flashing | Remaining Capacity |
|-------------------------------|--------------------|
| ● ○ ○ ○                       | Less than 5%       |
| ● ● ○ ○                       | 5% to 25%          |
| ● ● ● ○                       | 25% to 50%         |
| ● ● ● ●                       | 50% to 75%         |
| ● ● ● ●                       | 75% to 100%        |

### Important Safety Instructions

- To maximize battery life span, fully charge the power bank before first use
- Store power bank in a cool and dry place.
- Do not store power bank in hot or humid environment
- Operating temperature should be between -10°C to 45°C
- If power bank is not used for long periods of time, you should charge and discharge once every three months
- When charging a device, the power bank may feel warm, this is a normal operating condition and should not be cause for concern
- In normal conditions, the battery performance will decline over several years
- Do not dispose of power bank in heat or fire
- Do not clean power bank with harmful chemicals or detergents
- Misuse, dropping or excessive force may cause product damage
