SILICONE COOKWARE PROTECTOR

Use this cookware protector to keep your cookware scratch-free in storage.

Your stainless steel cookware is dishwasher-safe, but hand washing is recommended. High temperatures in the dishwasher may discolor the stainless steel.

Hand-washing with a soft towel or sponge in warm, soapy water is recommended to prolong the cookware's original appearance.

For tough stains, mix ½ cup of dishwasher detergent with 2 cups of hot water. Let stand in the cookware for 1-3 hours, then rinse and wash thoroughly.

For some foods, simmering ½ cup of vinegar and scrubbing with a non-abrasive sponge will give better cleaning results. Do not use metal sponges or brushes.

To help clean any discoloration or oil buildup, clean with Bar Keepers Friend® using a soft towel or sponge.
