

# FLEX 122IL

## ISLAND FIREPLACE

\*Image indicative of style only

**Room Divider Application**  
Four-sided fireplaces feature four open sides - view the flame from the front, back and sides.

**Decorative Side Box**  
When a decorative box is added, the panel between the standard fire and the decorative box is glass.

**Global Compliance**  
These models comply with existing standards in the USA, Europe, UK and Australia. UL Listed, EN 16647 BSI Certified and ACCC Safety Mandate compliant.

**Clean Burning**  
Fueled by clean burning e-NRG bioethanol

**Toughened Safety Screen**  
Your Flex Fireplace features toughened glass to stabilise the flame in windy conditions and provide an additional layer of safety and comfort. The Integrated windscreen sits flush behind the frame.

**Luxurious Finish**  
Available in a timeless black finish, Flex Fireplaces come with stainless steel burners and black glass charcoal.

**Built to Last a Lifetime**  
Zinc sealed steel construction powder coated with super hi-temp black paint prevents rusting so all fireplaces can be used both indoors or outdoors.

**Decorative Steel Log Sets (sold separately)**  
EcoSmart Fire offers non-combustible logs as an optional, eye-catching accessory for models with the decorative side box. Made from stainless steel with a patina finish, they are available in different finishes.  
*\*Decorative logs must NOT be placed directly over an open flame. They are designed to sit near heat but not over flames. Add only one set of decorative logs to this model style.*

**Zero Clearance**  
Self-contained, zero clearance construction allows your Flex fireplace to be framed into wood or metal studs, providing installation freedom and flexibility for builders, architects, interior designers, landscapers and homeowners.

**Included Accessories**

- Jerry Can
- Lighting Rod + Lighter
- Operations Manual
- Baffles
- Black Glass Charcoal
- Decorative Steel Logs

**Optional Accessory**
