# WHAT'S INCLUDED

## For Video Doorbell Installation

Video Doorbell Slim  
(1080p, Battery-Powered)  
Model: T8220

Mounting Bracket

Screw Hole  
Positioning Card

15° Mounting  
Wedge  
(Optional)

FCC ID: 2AOKB-T8220  
IC: 23451-T8220

USB Charging  
Cable

Screw Packs (Spare  
screws and anchors are  
included)

Doorbell  
Detaching Pin

Quick Start  
Guide

## For Wi-Fi Doorbell Chime Installation

Wi-Fi Doorbell Chime  
Model: T8020  
FCC ID: 2AOKB-T8020  
IC: 23451-T8020

Power Plug

**Note:** Power plug may vary in different regions.

# PRODUCT OVERVIEW

## Video Doorbell (Battery Powered)

Front view:

1. Motion Sensor
2. Microphone
3. Camera Lens
4. Ambient Light Sensor
5. Status LED
6. Doorbell Button
7. Speaker

Rear View:

1. Micro USB Charging Port
2. SYNC/RESET button
3. Detaching Mechanism

Operation	How-to
Power on	Press and release the SYNC button.
Add doorbell to Wi-Fi Doorbell Chime	Press and hold the SYNC button until you hear a beep.
Power off the doorbell	Quick-press the SYNC 5 times in 3 seconds.
Reset the doorbell	Press and hold the SYNC button for 10 seconds.

# HOW THE SYSTEM WORKS

## How the System Works

The video doorbell system includes 2 parts:

- The video doorbell at your door
- The Wi-Fi Doorbell Chime in your house

The video doorbell detects motion at your porch and allows you to answer the door anytime and anywhere. The Wi-Fi Doorbell Chime stores video clips on a microSD card (user provides it) and works as an indoor digital chime. When someone rings the doorbell, people in the house will be notified.

# STEP I POWERING ON THE WI-FI DOORBELL CHIME

## Connect the Wi-Fi Doorbell Chime to the Internet

1. Fix the power connector to Wi-Fi Doorbell Chime.
  - ① Place the power connector over Wi-Fi Doorbell Chime in the direction the arrows indicate.
  - ② Align the raised slots of the power connector with the notch on the base of the doorbell chime.
  - ③ Rotate clockwise to lock the power connector in place.

2. Extend Wi-Fi Doorbell Chime's antennas.

3. Plug Wi-Fi Doorbell Chime into an AC power supply at your desired location. The LED indicator turns solid green when the doorbell chime is ready for setup.

## STEP 2 SETTING UP THE SYSTEM

### Download the App and Set up the System

Download the eufy Security app from the App Store (iOS devices) or Google Play (Android devices).

Sign up for a eufy Security account and follow onscreen instructions to complete the setup.

Tap Add Device and add the following devices:

1. Add the Wii-Fi Doorbell Chime.
2. Add the doorbell.

## STEP 3 CHARGING YOUR DOORBELL

The doorbell comes with an 80% battery level for safe transportation. Fully charge it before mounting the doorbell at your front door.

**Note:** The battery life varies depending on usage. In most common cases, a doorbell may have up to 15 events per day and each recording lasts 20 seconds on average. Under this scenario, the doorbell battery life can last up to 4 months.

# STEP 4 FINDING A MOUNTING SPOT

## Find a Mounting Spot

Take the Video Doorbell to your front door and check the live view on the eufy Security app at the same time. Find a position where you can get the desired field of view.

Consider the below factors:

1. Check if you can reuse the existing holes and anchors on the wall or door frame.
2. If you want to place the doorbell close to a side wall, make sure the wall doesn't show up in the field of view. Otherwise IR light will be reflected and night vision will become blurry.
3. If you are drilling the mounting holes for the first time the recommended mounting height is 48" / 1.2m from the ground.
4. Use the 15° mounting wedge as a supplementary mounting bracket if you wish to see more on a specific side.

Place the Screw Hole Positioning Card against the wall to mark the position.

# STEP 5 MOUNTING THE BRACKET

## Mount the Doorbell on a Wooden Surface

If you're mounting the doorbell on a wooden surface, you don't need to pre-drill pilot holes. Use the provided screws to secure the Mounting Bracket on the wall. The Screw Hole Positioning Card indicates the position of the screw holes.

**What is required: Power Drill, Mounting Bracket, 15° Mounting Wedge (Optional), Screw Packs**

Without 15° Mounting Wedge

With 15° Mounting Wedge

## Mount the Video Doorbell on Surfaces Made Out of Hard Materials

1. If you're mounting the doorbell on a surface made out of hard materials, like brick, concrete, stucco, drill 2 holes through the Screw Hole Positioning Card with 15/64"(6mm) drill bit.
2. Insert the provided anchors, and then use the provided long screws to secure the Mounting Bracket on the wall.

**What is required: Power Drill, 15/64"(6mm) Drill Bit, Mounting Bracket, 15° Mounting Wedge (Optional), Screw Packs**

2

Wall Mounting Bracket

Without 15° Mounting Wedge

Wall Mounting Wedge Mounting Bracket

With 15° Mounting Wedge

## STEP 6 MOUNTING THE DOORBELL

### Mount the Doorbell

Align the doorbell with the top of the mount and then snap the bottom into place.

You're all set!

If you want to detach the doorbell or recharge it, please refer to the following sections.

# APPENDIX I DETACHING THE DOORBELL

## Detach the Doorbell

1. Use the doorbell detaching pin provided if you wish to detach the doorbell from the Mounting Bracket.
2. Insert and press the detaching pin into the hole on the bottom of the doorbell and then lift to take the bottom of the doorbell off.

What is required: Doorbell Detaching Pin

# APPENDIX 2 RECHARGING THE DOORBELL

## Recharge the Doorbell

Charge the doorbell with universal USB chargers that deliver 5V 1A output.

LED indication	Charging: Solid orange
	Fully charged: Solid blue
Charging time	6 hours from 0% to 100%

# NOTICE

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio / TV technician for help.

## FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

**Notice:** Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

The following importer is the responsible party:

Company Name: POWER MOBILE LIFE, LLC

Address: 10900 NE 8th St, Ste 501, Bellevue WA 98004

Telephone: 1-800-988-7973

 This product complies with the radio interference requirements of the European Community.

## Declaration of Conformity

Hereby, Anker Innovations Limited declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the declaration of conformity, visit <https://uk.eufylife.com/>

This product can be used across EU member states.

 This product complies with the radio interference requirements of the United Kingdom.

## Declaration of Conformity

Hereby, Anker Innovations Limited declares that the product is in compliance with Radio Equipment Regulations 2017. The full text of the UK declaration of conformity is available at the following internet address: <https://uk.eufylife.com>

Do not use the Device in the environment at too high or too low temperature, never expose the Device under strong sunshine or too wet environment.

The suitable temperature for T8020 and accessories is 0°C-40°C.

The suitable temperature for T8220 is 0°C-40°C.

When charging, please place the device in an environment that has a normal room temperature and good ventilation.

It is recommended to charge the device in an environment with a temperature that ranges from 5°C~25°C.

RF exposure information: The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of d=20 cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS

Wi-Fi Operating Frequency Range: 2412~2472MHz (2.4G)

Wi-Fi Max Output Power: 15.67dBm (EIRP for T8020); 15.01dBm (EIRP for T8220)

Bluetooth Operating Frequency Range: 2402~2480MHz; Bluetooth Max Output Power: -2.048dBm (EIRP for T8020)

The following importer is the responsible party (contact for EU matters only):

Anker Innovations Deutschland GmbH | Georg-Muche-Strasse 3, 80807 Munich, Germany

The following importer is the responsible party (contact for UK matters only):

Anker Technology (UK) Ltd I Suite B, Fairgate House, 205 Kings Road, Tyseley, Birmingham, B11 2AA, United Kingdom

This product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

## IC Statement

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

## IC RF Statement:

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.

Default Open Port 1: Wi-Fi (2.4GHz)

Port Description:

1. When powered on for the first time or after a reset, if there is no configured Wi-Fi information, it may enter network pairing mode (such as AP/BLE pairing);
2. In normal working mode, it will automatically connect to the router and save the SSID and password;
3. If you need to switch Wi-Fi configuration, you can use the App or follow the instructions in the manual to reconfigure the network.
4. TCP monitors Port 15250, and is used for connecting HomeBase.
