## Product Overview

The Green Lion Pocket Volt 10000mAh Power Bank offers a sleek and compact design, making it a perfect travel companion. Featuring a foldable USB-C connector and an integrated cable strap, it's easy to carry and store. This power bank supports fast charging with its PD 20W feature and allows for simultaneous charging of devices. The built-in kickstand offers added convenience, making it easier to use your phone while charging. The LED display shows the battery status, keeping you informed. Its compact size also ensures it's flight-approved, providing reliable charging solutions anywhere.

## Specifications

Model No.	GL-PX98
Material	ABS
Battery Capacity	10000mAh
USB-C Port Input	5V/3A, 9V/2.22A, 12V/1.67A (PD20W)
USB-C Connector Input	5V/3A, 9V/2.22A, 12V/1.67A (PD20W)
USB-C Port Output	5V/3A, 9V/2.22A, 12V/1.67A (PD20W)
USB-C Connector Output	5V/3A, 9V/2.22A, 12V/1.67A (PD20W)
USB-C Cable Output	5V/3A, 9V/2.22A,12V/1.67A (PD20W)

Total Output	5V/3A (15W Max)
Cable Length	130 mm
Product Weight	180 g
Product Dimensions	88*33*49 mm

## Safety Precautions

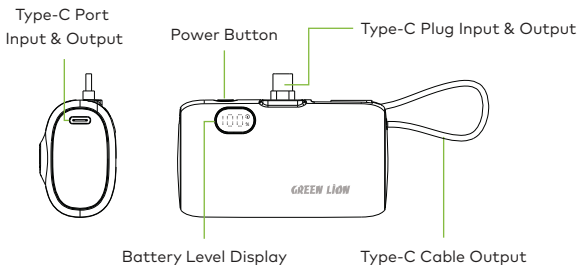

1. This product is not a toy. Please keep it out of the reach of children, and do not allow them to use or play with it to avoid accidents.
2. Do not press or tap this product, and avoid causing serious drops or strong vibrations. If these situations occur, or if liquid seeps/splashes into the interior of this product, it may cause damage or short circuits to the battery and circuit. Please stop using it immediately and dispose of it properly.
3. If this product swells, deforms, leaks, or shows a significant decrease in capacity, please stop using it immediately and dispose of it properly.
4. Do not place this product in clothing pockets, sealed bags, beds, sofas, or other places that may affect its heat dissipation for charging or discharging. And confirm that this product is not covered by clothing, pillows, bedding, or other debris during use. When charging other devices such as mobile phones for a long time, do not stack this product with other devices to ensure good heat dissipation.
5. It is strictly prohibited to disassemble, squeeze, puncture, short-circuit this product, or put it into water or fire (including near stoves, heaters, and other heat sources), or expose it to environments with temperatures higher than 60°C (140°F).

6. When the weather is hot, please do not place this product outdoors in unmanned vehicles or other places that are exposed to sunlight.
7. This product contains Polymer Lithium batteries. It is strictly prohibited to open the product casing without authorization to avoid battery damage or other hazards.
8. The Power banks have conversion efficiency, so the battery capacity is not equivalent to discharge capacity.
9. Please monitor the power bank when it is in the middle of the charging process. Please unplug the power supply when you leave.
10. To avoid the extra power consumption, please remove the power connection once the device is fully charged.
11. If the screen display can not be activated when pressing the main button, the power bank may be in protected status. Please try to recharge the power bank to restore it.
12. For long-term storage without using the power bank, please make sure the power store level is between 25% to 50%, and store it in a cool and dry environment to protect the battery life.
13. If consumers violate the warnings in the user's manual and use it improperly, they will be responsible for any personal and property damage caused. The manufacturer will not bear any legal responsibility for any consequences.
14. If the battery is not replaced properly, the risk of explosion exists. And only the same or equivalent type of battery can be used for replacement.

## Application Environment

Using Environment temperature is between 0°C (32°F) and 30°C (86°F), and the Storage environment temperature is between 0°C (32°F) and 40°C (104°F).

## Product Components

## Material Contents

Part Name	Hazardous substance or elements					
	pb	Hg	Cd	Cr (VI)	PBB	PBDE
PCB	X	○	○	○	○	○
Electrode	○	○	○	○	○	○
Battery	X	○	○	○	○	○
Case	○	○	○	○	○	○

The table is prepared in accordance with the provisions of SJ/T 11364. O: indicates that the content of the toxic and harmful substance in all homogeneous materials of the component is below the limit requirements specified in GB/T 26572 standard.

X: Indicates that the content of toxic and harmful substances in at least one homogeneous material of the component exceeds the limit requirements specified in GB/T 26572 standard.

This product complies with the EU ROHS2.0 Directive (65/2011/EU)  
Attention: This product is prohibited from use after immersion in water, and the battery should not be exposed to environments such as sunlight, fire, or similar overheating. If consumers use power adapters for power supply, they should purchase matching power adapters that have obtained CCC certification and meet standard requirements

## Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.

## **Warranty**

Products that you buy directly from our **Green Lion** website or shop come with a 24-month warranty.

When you buy **Green Lion** products from any of our approved sellers, you only get a 12-month warranty. If you want to extend this warranty, go to our website at <https://www.greenlion.net/warranty> and fill out the form with your information. Don't forget to upload a picture of the product too. After we've checked and accepted your request, we'll send you an email to confirm that your product's warranty has been extended.

For more info, please check:
