

### L5H 4K Smart Laser TV

### Big Screen. Big Entertainment.

Get movie-theater immersion only with the convenience of TV. The L5H's ultra short throw projection technology allows you to place the projector just inches from the screen and gives you a beautifully bright, 4K image that's 3x bigger than a 55" monitor. With built-in features like 40W Powerful Sound, Dolby Vision Atmos, Google TV, Game Mode, Filmmaker Mode, and a 25,000-hour lifespan, the L5H is an ultimate big screen upgrade you can enjoy for years to come.

- Ultra Short Throw Technology
- 100" Laser TV Diagonal
- Dolby Vision Atmos
- Google TV
- 25,000 Hours Life
- Smooth Motion & V.MO
- Game Mode with ALLM
- Filmmaker Mode

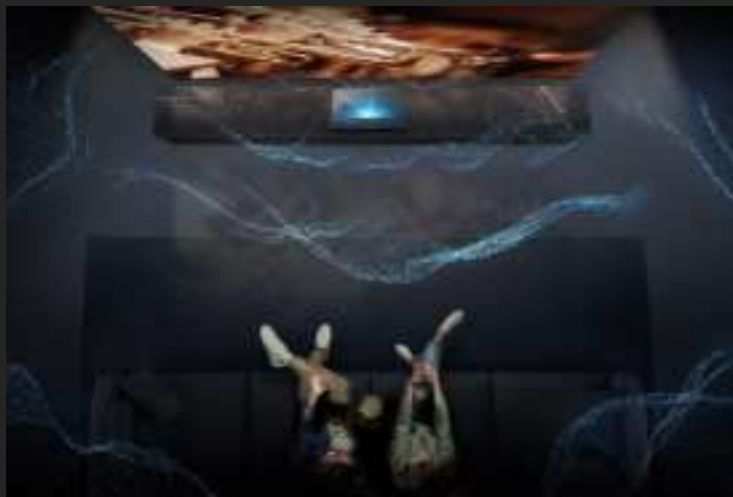

## Ultra Short Throw. Ultra Convenient.

Big screen entertainment in the convenient package. No need for ceiling mounts or in-wall cable runs. Simply place the L5 Laser TV stand just 11 inches from the wall to get a massive 100-inch projector – that's 30% more screen than a 55-inch TV.

## Ambient Light Rejecting Screen

The L5 Laser TV Display that employs Ambient Light Rejection technology to eliminate glare and image wash out from ambient light. The Laser TV Display gives you a killer picture under any lighting condition without having to dim the lights.

## Cinematic Sound

With built-in 40W Dolby Atmos® sound, the L5 Laser TV offers cinematic sound that seemingly flows all around you. For the true audiophile, the L5's eARC support means you get full signal pass thru to your surround sound system.

## Google TV

Google TV brings together movies, shows and more from across your apps and subscriptions and organizes them just for you. Discover new things to watch with recommendations based on what you watch and what interests you.

## 4K Picture with HDR10

With 4K resolution, HDR10 support, and 2700 ANSI lumens peak brightness, the U51 faithfully recreates a world of richer color and detail. The fixed focal length of the U51 delivers unmatched picture clarity and focus uniformity.

## X-Fusion™ LaserEngine

Experience true-to-life color with impressive dynamic range that just doesn't quit. The U51's X-Fusion™ LaserEngine exceeds the Rec.709 standard for LCDs and lasts long enough to enjoy more than 25,000 hours of content.

## Dolby Vision®

Whether you want to catch up on the latest content from Prime Video, or YouTube, or simply enjoy some time with your favorite movies or games, Laser TV delivers original content with better detail in the shadows and brighter highlights.

## Filmmaker Mode

Filmmaker Mode reads metadata from your content to automatically enable only best processing format settings on the Laser TV so you see videos as the creators intended.

## Smooth Motion and MEMC

The U51 has a finely designed signal response time, delivering image motion that stays true to creative intent, whether that's a cinematic film or fast-paced first-person gaming. And when desired, Motion Estimation/Motion Compensation (MEMC) options can help test moving scenes feel even more fluid.

## Game Mode with ALLM

No need to manually change TV settings when you're about to drop in. High-speed HDMI ports detect when the game is loaded and the best video input source is then automatically adjusted to optimize signal processing settings to optimize game performance.

## Smart Home Ready

With built-in Wi-Fi, Bluetooth, Google Assistant, Works with Alexa, the U51 also includes Voice Remote that can be integrated with your smart home ecosystem to create custom actions to your heart's desire.
