LASER TV 4K

L5H
4K SMART
LASER TV

Big Screen. Big Entertainment.

The L5H Laser TV immerses you into a whole new 4K UHD viewing experience. It's DLP® Technology powered by Texas Instruments and X-Fusion Laser Light Source enables you to enjoy a more natural viewing experience that brings your favourite content to life. This unique experience integrates the Google TV OS and includes an ambient light-rejection screen along with Dolby Atmos cinematic sound. With the IMAX Enhanced and Film Maker Mode, you can experience the next generation of optimized picture performance at home.

- Ultra Short Throw Technology
- 25,000 Hours Life
- 2700 Lumens Brightness
- 4K Resolution, 60Hz Refresh
- Dolby Vision®
- 40W Dolby Atmos® Sound
- High-Speed HDMI with eARC
- Backlit Voice Remote
- Google TV

Ultra Short Throw. Ultra Convenient.

Big screen entertainment in a convenient package. No need for ceiling mounts or in-wall cable runs, simply place the L5H on a TV stand just 11 inches from the wall and get a massive 100-inch projection – that's 3x more screen than a 55-inch TV.

Ambient Light Rejecting Screen

The L5H's Laser TV display employs Ambient Light Rejection technology to eliminate glare and image wash out from ambient light. The Laser TV display gives you a killer picture under any lighting condition without having to kill the lights.

Cinematic Sound

With built-in 40W Dolby Atmos® sound, the L5H delivers cinematic sound that seemingly flows all around you. For the true audiophiles, the L5H's eARC support means you get full signal pass-thru to your surround sound system.

Google TV

Google TV brings together movies, shows and more from across your apps and subscriptions and organizes them just for you. Discover new things to watch with recommendations based on what you watch and what interests you.

4K Picture with HDR10

With 4K resolution, HDR10 support, and 2700 Lumens peak brightness, the L5H faithfully recreates a world of incredible color and detail. The fixed-focal length of the L5H delivers unmatched picture clarity and focus uniformity.

X-Fusion™ Laser Engine

Experience true-to-life color with impressive dynamic range that just doesn't quit. The L5H's X-Fusion™ Laser Engine exceeds the Rec.709 standard for UHD 4K and lasts long enough to enjoy more than 25,000 hours of content.

Dolby Vision®

Whether you want to catch up on the latest content from Prime Video, or YouTube, or simply enjoy some time with your favorite immersive games. Laser TV delivers original content with better detail in the shadows and brighter highlights.

Filmmaker Mode

Filmmaker Mode reads metadata from your content to automatically disable any post-processing motion settings on the Laser TV so you see video as the creators intended.

Game Mode with ALLM

No need to manually change TV settings when you're about to drop in. High-speed HDMI ports detect when a gaming console is the active input source and automatically adjust picture and signal processing settings to optimize game performance.

Smart Home Ready

With built-in Wi-Fi, Bluetooth, Google Assistant, Works with Alexa, the L5H and its included Voice Remote can be integrated with your smart home ecosystem to create automations to your heart's desire.
