The centre:

Welcome to MAKS Caravan Centre! Nestled at 36 Euston Road, Glenvale, 4350, our centre thrives on a passion for adventure and community. Owned by two dedicated caravan enthusiasts, we're committed to helping fellow adventurers explore with confidence. Our team of highly qualified experts is equipped to handle all your caravan needs—from technical repairs to custom installations and renovations. At MAKS, you're not just a customer; you're part of a community. Connect with us at office@maksc.com.au or call **07 4637 2953** to start your journey towards unparalleled caravan care and adventure.

Diesel Heating

A WINTER ESSENTIAL

Diesel heaters offer unmatched comfort for caravan enthusiasts, making them an **essential addition** for those exploring cooler climates. These heaters are highly efficient, using less fuel to generate more heat compared to other heating options. They provide consistent, controllable warmth, ensuring a cozy environment regardless of outside temperatures. Additionally, diesel heaters operate quietly and emit minimal exhaust, making them environmentally friendly. Their independent fuel source means they don't rely on your caravan's main power supply, allowing for longer, more comfortable journeys.

AUTOTERM DIESEL AIR HEATER 12V 2KW KIT WITH DIGITAL CONTROLLER

- 1. Perfect for light sleepers by design:** silent fuel dosing pump, balanced fan, and intake/exhaust silencers.
- 2. Efficient and durable:** Autoterm utilises a brushless fan motor which offers increased lifespan and minimal maintenance.
- 3. Quality assurance:** each heater is tested for an hour to ensure correct operation, and one from each batch is tested for 3000 hours. Autoterm offers a three-year manufacturer's warranty.

PRICING

2KW Kit with Digital Controller - \$1780
2KW Kit with Digital Controller & Tank - \$2010
2KW Kit with Digital Controller, Tank & Installation \$3130

Air-conditioning & Dust Reduction

FOR A DUST-FREE AND COOL ATMOSPHERE

ROOF MOUNT

Suit Standard Caravan:

1. Dometic Fresh Jet Series 7 Pro - \$2886
2. Dometic Fresh Jet Series 7 ADB - \$320
3. AC Support Frame - \$220

Suit Large Caravan:

1. Dometic Fresh Jet Series 7 Plus - \$3033
2. Dometic Fresh jet Series 7 ADB - \$320
3. AC Support Frame - \$220

Suit Pop-Top Caravan:

1. Dometic Fresh Jet Series 7 Lite - \$2828
2. Dometic Fresh jet Series 7 ADB - \$320
3. AC Support Frame - \$220

Labour Charges:

- Removal and Replacement - \$420
- New Installation - \$1120
- Cabinet Modifications - \$280

UNDER-BED/CABINET MOUNT

Suit Standard Caravan:

Furrion 90000BTU 2.6kW - \$1745

Labour Charges:

- Remove/Replace - \$630
- New Installation - \$1120

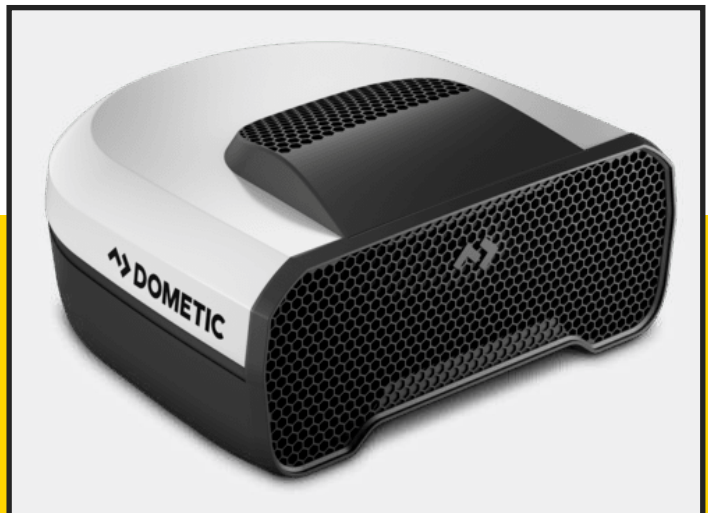

DUST REDUCTION SYSTEMS

Carafan Sahara 12V Caravan Pressuriser - \$2140

Removal + Replace - \$280

New Installation - \$980

Dometic Dust Reduction System - \$870

Awning Rolls & Fabric

STRONG, RELIABLE, & SERVICABLE AWNINGS

Dometic Awning Rolls

12ft	Charcoal Black - \$887 Polar White - \$835
13ft	Charcoal Black - \$889 Polar White - \$899
14ft	Charcoal Black - \$981 Polar White - \$926
15ft	Charcoal Black - \$981 Polar White - \$953
16ft	Charcoal Black - \$999 Polar White - \$1032
17ft	Charcoal Black - \$1020 Polar White - \$1056
18ft	Charcoal Black - \$1060 Polar White - \$1079
19ft	Charcoal Black - \$1093 Polar White - \$1093
20ft	Polar White - \$1123

Dometic Awning Hardware

Standard Caravan	White - \$650 Black - \$650
Pop-Top Caravan	White - \$650 Black - NLA
Large/Tall Caravan	White - \$750 Black - \$750

Dometic Installation

Removal & Replacement - \$420
New Install of Hardware and Roll - \$1120

Carefree Awning Rolls

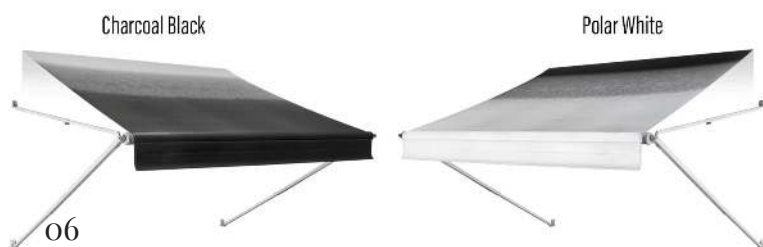

13ft	Silver Shale Fade - \$975 Black Shale Fade - \$923
14ft	Silver Shale Fade - \$979 Black Shale Fade - \$964
15ft	Silver Shale Fade - \$1009 Black Shale Fade - \$996
16ft	Silver Shale Fade - \$1086 Black Shale Fade - \$1026
17ft	Silver Shale Fade - \$1100 Black Shale Fade - \$1100
18ft	Silver Shale Fade - \$1149 Black Shale Fade - \$1199
19ft	Silver Shale Fade - \$1150 Black Shale Fade - \$1321
20ft	Silver Shale Fade - \$1253 Black Shale Fade - \$1253
21ft	Silver Shale Fade - \$1364 Black Shale Fade - \$1274

Carefree Awning Hardware

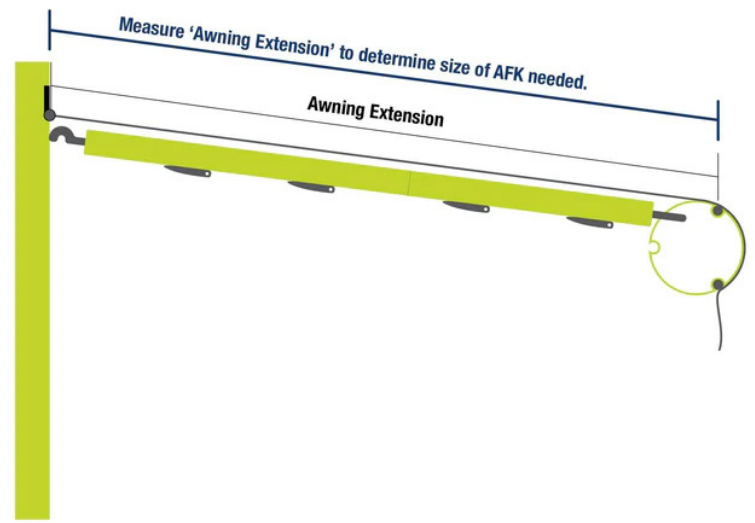

Standard Caravan	White - \$650 Black - \$650
Pop-Top Caravan	White - \$650 Black - \$750

Carefree Installation

Removal and Replacement - \$560
New Install - \$1120

Roof Rafters & Anti-Flap Kits

Anti-flap Kits

Short	White - \$420
	Black - \$464
Medium	White - \$390
	Black - \$431
Long	White - \$380
	Black - \$390
AFK Installation	All - \$70

Curved Rafters

Mini Curve (95mm)	White - \$108
	Black - \$108
Maxi Curve (125mm)	White - \$129
	Black - \$129
Rafter Installation	All - \$70

The Benefits of Anti-flap Kits and Curved Rafters

Anti-flap kits provide stability, preventing noisy and damaging flapping in windy conditions. Meanwhile, curved roof rafters help maintain the awning's shape, preventing water pooling and sagging. Together, they ensure your awning remains taut and secure, extending its lifespan while offering a more pleasant and relaxing outdoor area. Invest in these essential upgrades to enjoy peace of mind and enhanced comfort on your travels.

Use the above guide to approximate the length of the anti-flap kit that you require. Curved rafters are sized based on the age of your awning fabric - the older the awning, the more tension you'll need to put in it. As your awning ages, you can put stronger and additional roof rafters in to get the most life out of your fabric.

Couplings

The Cruisemaster DO35 and DO45 hitches offer superior **safety and flexibility** for towing your caravan or trailer. These articulating pin-style hitches allow for extensive movement and articulation, which enhances towing **stability and comfort, especially on uneven terrain**. The advanced ADR compliant locking mechanism ensures that the hitch remains securely connected under all conditions, providing peace of mind. In the event of a rollover, the robust design of the DO35 and DO45 minimizes the risk of the caravan or trailer disconnecting or causing the tow vehicle to roll, significantly **increasing safety**. Opt for these hitches to ensure a safer, smoother journey wherever you roam. Cruisemaster hitches utilise a pin-style coupling, whereas AL-KO utilises a standard ball.

AL-KO offers a range of coupling options designed to meet the diverse needs of caravan and trailer owners, ensuring safety, reliability, and ease of use in various towing conditions. **AL-KO Offroad**

Ball Couplings: These couplings are engineered for extreme off-road adventures, providing unmatched articulation both vertically and horizontally. This design allows for easy hitching without the need for pin or hole alignment, ideal for navigating Australia's rugged terrains. The robust construction ensures durability and reliability when you're far from the beaten path. **Overrun Brake**

Couplings: Suitable for trailers weighing between 750 kg and 2000 kg ATM, these couplings use a mechanical or hydraulic linkage system that activates brakes based on the deceleration force transmitted through a sliding shaft attached to the tow ball housing. This system ensures adequate braking in sync with the tow vehicle, offering a safe and controlled towing experience. **Fixed Couplings:** AL-KO fixed couplings provide a reliable and secure connection for lighter, non-articulated towing needs. These couplings are designed to meet stringent Australian standards, ensuring safety and performance across a wide range of towing scenarios.

Couplings:

Cruisemaster DO-35 - \$525

Cruisemaster DO-45 - \$900

AL-KO Coupling - \$186

+ Handbrake - \$39.75

AL-KO 3500kg Fixed - \$170.50

Installation:

New installation - \$140

Removal and Replacement - \$70

Brake Controllers & ESCs

elecbrakes

The Elecbrakes E-Brake 2 is a trailblazing electric brake controller that revolutionizes towing with its **user-friendly and flexible design**. This device is particularly notable for its "Plug & Play" installation, which can be completed in just 10 minutes without any modifications to your tow vehicle. This makes it an ideal solution for a variety of trailers and vans.

Key features of the Elecbrakes E-Brake 2 include:

- 1) Multi-Vehicle Compatibility: EB2 mounts directly on the trailer, allowing any vehicle with the correct towing capacity to be used without additional setups.
- 2) Cost Efficiency: With no need for hard-wiring into a vehicle, it avoids large installation costs typically required by other systems, and you don't need to buy a new unit for each tow vehicle you own.
- 3) Customizable Control: It offers five preset programs that can be adjusted to suit different towing conditions, all manageable via a smartphone app which also allows for real-time monitoring and adjustments.
- 4) Robust Design: Designed and manufactured in Australia, Elecbrakes are built to withstand harsh conditions, ensuring reliability and durability.

AL-KO

Ensure unparalleled safety on the road with the AL-KO **Electronic Stability Control (ESC)** system, designed to ensure maximum control and stability of your caravan in critical lateral movement situations. The ESC is engineered and made in Australia, and is the top choice among several leading Australian caravan manufacturers.

Key Features:

- 1) Automatic Braking: At the first sign of dangerous **lateral movements**, the ESC system promptly applies brakes to all wheels, drastically reducing stopping distance and maintaining your caravan's road position.
- 2) Cutting Edge Technology: The ESC system is equipped with lateral acceleration sensors, allowing the ESC to detect sudden swerves to avoid obstacles or road pulls, ensuring your caravan and tow vehicle operate as one **without the risk of jack-knifing**.
- 3) Off-Road Capability: ESC continues to perform effectively on diverse terrains like corrugated gravel, keeping you safe no matter where your adventure takes you.

Elecbrakes:

EC2 Controller Module - \$692

12-pin Adaptor - \$90

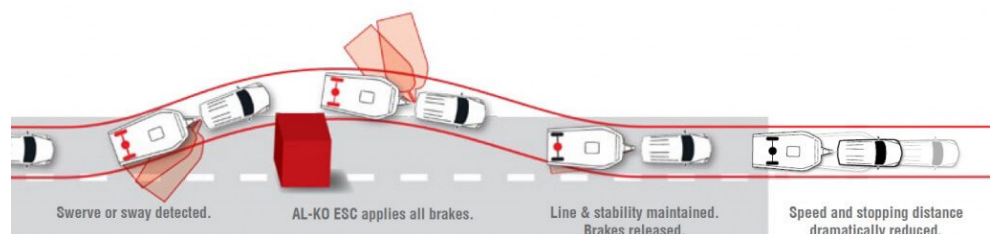

7-pin Adaptor - \$90

Installation - FREE

AL-KO ESC:

ESC Kit - \$1800

Installation - FREE

Antenna & Satellite

Winegard TV Antenna

Complete Kit - \$705.95

Retrofit Kit - \$494.00

Removal & Replacement - \$98

New Installation - \$700

Sphere Satellite Systems

Astrolink Satellite System - \$2700

SatKing Vast Box - \$480 (new install only)

Removal & Replacement - \$630

New Installaton - \$1400

Hot Water Systems

Truma UltraRapid - \$1296

Energy Sources: LPG (Propane), 12V DC + 230V/240V AC

Electric Heating Output: 1415 W

Gas Output: 1200 W

Power Consumption: 5.7 A / 5.9 A (230V), 0.16 A (ignition), 0.12 A (heating), 0.05 A (standby)

Water Capacity: 14 liters

Heating Time: Approx. 45 min (gas), 40 min (electric), 28 min (mixed)

Pump Pressure: Max. 400 kPa

System Pressure: Max. 500 kPa

Gas Consumption: 96 g/h

Weight: 8.1 kg

Dimensions: 360 x 383 x 324 mm

Suburban SW6DERA Hot Water System - \$1232

Capacity: 6 gallons (22.7 liters)

Fuel Source: Propane, electric

Heating Power: 12,000 BTU (gas)

Recovery Rate: 10.2 gallons per hour

Electric Element: 1440 W

Dimensions: 330 x 330 x 495 mm

Weight: 18 kg

Ignition Type: Direct Spark Ignition (DSI)

Temperature Range: Adjustable from the thermostat

Safety Features: Pressure and temperature relief valve, freeze protection

Installation

Removal & Replacement - \$520 | New Installation - \$1080
