

BAR 1000MK2

7.1.4 channel soundbar system with detachable surround speakers, Dolby Atmos® and DTS:X®

Get real spatial sound in seconds.

Real spatial sound—the kind that fills your space from floor to ceiling with true Dolby Atmos® and DTS:X height effects—can be yours in seconds. Just pick up the detachable wireless speakers from either end of the JBL BAR 1000MK2 soundbar and place them behind where you're sitting. That's it.

While you're pulled into the center of the action, you'll enjoy deep, punchy bass from a 10" subwoofer and MultiBeam™ 3.0 for the widest, most cinematic soundstage. If you need to step out of the room while you're catching up with your favorite video podcast or enjoying your go-to streaming playlist on your TV, take one of the wireless speakers along and you won't have to miss a thing.

JBL can do this because our speakers are trusted in cinemas, recording studios, and concert halls. And this immersive sound experience works seamlessly with all TV brands. Enjoy the freedom of unbound cinematic sound.

Dolby Atmos dtsx MultiBeam COMPATIBLE WITH Dolby Vision

BAR 1000MK2

7.1.4 channel soundbar system with detachable surround speakers, Dolby Atmos® and DTS:X®

Features and Benefits

Real panoramic surround sound with detachable wireless speakers

Elevate your 3D surround sound experience with dynamic, immersive height. Four up-firing speakers in the soundbar and wireless rear speakers deliver true Dolby Atmos® sound. No extra wires. No power connections. Just lift the detachable surround speakers off the soundbar—you can do it with just one hand—and place them behind where you want to sit, instantly transforming them into a true surround sound setup. It's that simple. Whether you're binge-watching your new favorite show or hosting a movie night, the speakers' rechargeable long-lasting batteries mean you'll enjoy immersive, cinematic surround sound for hours. When you're done, simply place them back on the soundbar to charge overnight.

True Dolby Atmos® and DTS:X

Plunge into theater-quality 3D spatial sound with true Dolby Atmos® and DTS:X. Shiver as spaceships fill the sky overhead. Feel explosions that rumble through your body. Experience music like you're right there in the recording studio.

MultiBeam™ 3.0

Wherever you're sitting, you'll be in the middle of the action. Our MultiBeam™ 3.0 delivers a wide, cinema-like soundstage that makes every high-speed chase or epic fight scene come alive. The sound beams perfectly fill your room, delivering the most immersive, lifelike, and realistic sound reproduction.

PureVoice 2.0

Never miss a softly spoken line or a whispered plot twist. JBL's own PureVoice 2.0 automatically raises or optimizes the dialogue, based on both ambient sound in the scene and your soundbar's volume. So you'll always hear every word, clearly and consistently, in cinema-quality sound.

SmartDetails

Hear all the subtleties in a film's sound mix, just like you would in the theater. From a creaking door to a faraway shout, experience every detail the way the filmmakers intended in a clear, balanced sound field, thanks to JBL's own advanced sound enhancement technology.

Broadcasting

You don't want to miss any of the big game, even when you're in the kitchen making another batch of hot wings. Just bring one—or both, for stereo sound—of the detachable wireless speakers with you and you'll hear the same great movie-quality audio your family and guests are enjoying in the other room.

Night listening

Enjoy your favorite shows or movies without disturbing others. Just put the wireless detachable speakers in front of you and use the JBL ONE app to turn on night listening. The soundbar and the subwoofer are automatically muted, while the speakers deliver an intimate high-quality audio experience just for one. Or two.

JBL ONE App

Set up the soundbar using the JBL ONE app, then make it yours. Customize the sound your way with a precise equalizer, browse your favorite music apps, and get software upgrades for all the latest features, right from your couch.
