

The customer can place the monitor in Reader Mode to improve how text looks:

| Button                                                                            | Menu Status        |                    | Description                                                             |
|-----------------------------------------------------------------------------------|--------------------|--------------------|-------------------------------------------------------------------------|
|  | Main menu disabled |                    | Enables the main menu.                                                  |
|                                                                                   | Main menu enabled  |                    | Close the main menu.<br>(Long press the button to turn off the monitor) |
|  | ◀                  | Main menu disabled | Adjusts the monitor volume level. (for HDMI only)                       |
|                                                                                   |                    | Main menu enabled  | Enters the input features.                                              |
|                                                                                   | ▶                  | Main menu disabled | Adjusts the monitor volume level. (for HDMI only)                       |
|                                                                                   |                    | Main menu enabled  | Enters the Settings feature.                                            |
|  | ▲                  | Main menu disabled | Displays the information on the current input.                          |
|                                                                                   |                    | Main menu enabled  | Turns off the monitor.                                                  |
|                                                                                   | ▼                  | Main menu disabled | Displays the information on the current input.                          |
|                                                                                   |                    | Main menu enabled  | Enters the picture mode feature. (for HDMI only)                        |

Main Menu Features

| Main Menu    | Description                                             |
|--------------|---------------------------------------------------------|
| Settings     | Configures the screen settings.                         |
| Picture Mode | Select picture mode to achieve the best display effect. |
| Input        | Sets input mode.                                        |
| Power Off    | Turns off the monitor.                                  |
| Exit         | Exits the main menu.                                    |

| Settings > Picture |                |  | Description                                                                                                                                             |
|--------------------|----------------|--|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Picture Mode       | Custom         |  | Allows the user to adjust each element. The color mode of the main menu can be adjusted.                                                                |
|                    | Reader         |  | Optimizes the screen for viewing documents. You can brighten the screen in the OSD menu.                                                                |
|                    | Photo          |  | Optimizes the screen to view photos.                                                                                                                    |
|                    | Cinema         |  | Optimizes the screen to improve the visual effects of a video.                                                                                          |
|                    | Color Weakness |  | This mode is for users who cannot distinguish between red and green. It enables users with color weakness to easily distinguish between the two colors. |
|                    | Game           |  | Optimizes the screen for gameplay.                                                                                                                      |
