Maintenance

- To keep your DAPHNE SLEEPER SOFA looking its best, dust frequently and gently with a soft, non abrasive cloth. Do not use harsh chemical or abrasive cleaners as they can damage and ruin your sofa. Regularly vacuuming will reduce the amount of dust and debris in the fibers and keep your DAPHNE SLEEPER SOFA neat and clean. Therefore, prolong the life of your sofa by regularly vacuuming low suction. If pilling occurs, we recommend a simple battery operated pilling tool to remove them.

Care and Cleaning

- Spot cleaning. Treat spills and stains as soon as possible. Gently scrape off any dirt or mop any liquid from the surface.
- Always apply cleaning agents to a clean cloth first, not directly to the surface of the fabric. This method will help prevent stains from funneling into the textures or patterns of the fabric.
- Use a water-based upholstery cleaner, then wipe with a slightly damp cloth and pat dry. For best results, consider cleaning entire fabric panels this way.
- Avoid heat. Do not place your DAPHNE SLEEPER SOFA near heating vents or heating items to avoid moisture buildup and possible burn marks and burns.
- Avoid direct sunlight. UV rays will fade any colored fabrics, so keep them out of direct sunlight whenever possible.

Troubleshooting

TABLE

Step	Problem	Possible reason	Solution
1	Can't operate the extended seat	The skirt stuck between the seat and extension.	Carefully take out the skirt and try to operate again.
2	Hard to pull out the extended seat	There maybe foreign object stuck on the wheel	Clean the wheel
3	The skirt is flared out	Wrinkle	Depend on the fabric, you can steam iron to wrinkle free.
