

Instruction Manual for 10-in-1 USB Charging Cable

Product Name: 10-in-1 USB Charging Cable

Color: Black

Description:

This charging cable comes with 10 connectors that are compatible with the mainstream charging interfaces of current mobile phones. The specific connectors are as follows: 4S, Mini, 2 Micro, DC2.0, DC3.5, DC4.0, DC5521, M300, and TYPE-C.

It can be used in combination with a car charger adapter (or a regular charging adapter, or a computer's USB port) to achieve the charging function. What's more, it supports charging multiple devices simultaneously. With this 10-in-1 USB charging cable, you can conveniently charge several of your devices at the same time without having to prepare multiple individual charging cables, which is highly practical for daily use.
