

# USB Wall Charger, 1-Port, 12W

19.99.1093

## User Manual

## DEAR CUSTOMER

Thank you for purchasing this product. For optimum performance and safety, please read these instructions carefully before connecting, operating or using this product. Please keep this manual for future reference.

## 1.0 INTRODUCTION

This product is a high-performance and small-sized travel charger with steady 5V/2.4A output. Plug the product into an AC socket, then you can charge your device (MP3, mobile phones, etc) via the USB port.

## 2.0 FEATURES

- Stable performance.
- Accurate limited current output, overload protection and auto restart after troubleshooting make the product safer, and you are at ease to use.
- It boasts energy saving and environmental protection.
- Strong anti- interference ability.
- Output over-current protection.
- Light, smart and convenient to use.

## 3.0 SPECIFICATIONS

Input	100-240V AC 50/60Hz
Output	5.0VDC 2.4A
Ripple And Noise	≤200mV
Port	USB A/F
Socket	UL socket
Color	Black
Weight	50g
Overload protection	Yes
Short circuit protection	Yes
Efficiency	≥79.94%

## 4.0 PACKAGE CONTENT

Before attempting to use this unit, please check the packaging and make sure the following items are contained in the shipping carton:

- Main unit       x1
- User Manual    x1

## 5.0 OPERATION

### Operation Notes

1. For optimum performance, please use the travel charger according to the user manual.
2. Please plug the travel charger into a socket whose voltage range is 100V~240VAC.
3. Please unplug the travel charger after using.
4. Do not use the travel charger with an electronic product which is not in conformity with the specifications, to avoid any problems caused by specification mismatching.
5. It is normal that travel charger will get a little bit warm in the use process.
6. When the travel charger stops working under over-current, over-temperature or short-circuit protection, please unplug the device after it automatically returns to work, then you need to check whether the device is compatible with this charger.
7. Do not let the travel charger close to fire, such as stove, candles etc.
8. Do not let the travel charger soak into liquid, such as swimming pool, bathtub, etc.
9. Do not wash the travel charger with corrosive cleaner.
10. If the travel charger cannot work properly, please contact your vendor.

### Operation Procedures

1. Plug the travel charger into a socket and the indicator light turns blue.
2. Plug the USB connector of the USB cable into the travel charger's output interface, then plug the other end of the USB cable into the electronic device (such as mobile phone, MP3, camera series).
3. Please unplug the travel charger after the electronic device is charged.
