Vitocrossal 300, CU3A

Safety and Installation Requirements

Please ensure that these instructions are read and understood before starting any service work. Failure to comply with these instructions may cause product/property damage, severe personal injury and/or loss of life.

Working on the equipment

The installation, adjustment, service and maintenance of this product must be performed by a licensed professional heating contractor who is qualified and experienced in the installation, service, and maintenance of hot water boilers. There are no user serviceable parts on the boiler, burner or control.

Ensure that main power to the equipment being serviced is off.

Ensure that the main fuel supply valve to the boiler is closed.

Take precautions to avoid accidental activation of power or fuel during service work.

Do not perform service work on any component part without ensuring safe operation of the heating system. When replacing parts, use original Viessmann or Viessmann approved replacement parts.

Refer to the Installation and Service Instructions applicable to this boiler.

Installation of Gaskets

WARNING

Improperly installed burner gaskets can lead to flue gas leakage.
Ensure correct orientation during installation.
Please see following tables.

Gaskets

7817185		40 lb.in (4.5 Nm)

Gaskets

		
7817692		40 lb.in (4.5 Nm)
7818117		35 lb.in (4.0 Nm)
7835164		31 lb.in (3.5 Nm)
7836177		31 lb.in (3.5 Nm)
7836178		40 lb.in (4.5 Nm)
7869894		40 lb.in (4.5 Nm)

Refer to the Installation and Service
Instructions applicable to this boiler.
