Warning & Safety Information

This product is not suitable for children under 3 years old. Do not swallow small parts, to prevent choking.

Avoid contact with eyes; if accidental contact occurs, rinse immediately.

WiFi Dash Cam 1080P HD vehicle driving recorder with APP Car DVR Front Camera Video Recorder Night Vision Dashcam Car Accessories

Feature

After installing a tachograph, it can record video images and sounds of the entire process of car driving, providing evidence for traffic accidents.

2. People who enjoy self-driving can also use it to record the process of overcoming difficulties and obstacles.

3. When driving, record the time, speed, and location while walking, which is quite a "black box".

4. It can also be used for DV shooting of life fun at home, or as a home monitoring device.

5. Parking monitoring and installation of a driving recorder can also be done in daily life. Video data cannot be cropped, and if cropped, assistance cannot be provided after a liability accident occurs. It is also to prevent the inevitable collision behavior in today's society.
